Etä- ja lähiopiskelumahdollisuudet

At the beginning we make you an individual study plan and ensure that this qualification is right for you.

Most of the education is conducted at your workplace in daily assignments. In addition, education is supported by simultaneously both online and classroom studying, which gives you the freedom to choose most suitable way to attend lessons. Studies include assignments and instructional videos, and you take them at a self-directed pace.

Education also supports the development of Your Finnish language skills.

Competence demonstrations are conducted at your workplace during daily assignments. The demonstration is assessed based on how well you carry out given tasks. Trainer and workplace representative make the assessments together.

If your competence is found sufficient enough, You can complete the qualification by conducting only competence demonstrations.

Tuition Fees for Citizens from Outside the EU and EEA

Tuition Fees for Citizens from Outside the EU and EEA

According to the Act on Vocational Education and Training, tuition fees as of 1 August 2026 apply to students from outside the EU and EEA who begin vocational education and training.

Students who have first arrived in Finland on a student residence permit are required to pay a tuition fee in vocational education and training.

The tuition fee also applies to adults who come to Finland on the basis of family ties if their sponsor’s residence permit, or first residence permit, has been issued on the basis of studies.

The student must pay the tuition fee until they are issued a permanent residence permit in Finland.

The tuition fee for this qualification is 9,000€ per academic year.

The duration of studies is determined based on the student’s personal competence development plan, which should be considered when estimating the total cost of studies. For more information on tuition fees for students from outside the EU and EEA, please see the Taitotalo website and the website of the Ministry of Education and Culture.

For apprenticeship training, you need an employer in the field with whom an apprenticeship contract can be concluded. Unconditional requirement for starting education is employment in Finland in cleaning services and minimum 25 h/week.

More information about apprenticeship education (in Finnish).

For apprenticeship agreement, Further Vocational Qualification in Cleaning and Property Services the student fee for completing the entire qualification is 50 euros (VAT 0%).

The student fee is to be paid at the beginning of your studies in one installment. The student fee is not refunded if the education is interrupted.

Employers have the opportunity to reimburse the student fee to the student tax-free (according to the guidance of the Tax Administration: "an employer can reimburse, tax-free, the invoice for training costs incurred by the employee in the employer's interest against receipts").

It is also possible to complete partial qualifications from this qualification. The student fee for a partial qualification is 0 euros (VAT 0%).
